[NOTE: The United States Patent and Trademark Office may require additional information if there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137(b) was unintentional (MPEP 711.03(c), subsections (II)(C) and (D)).]

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

Dear Sir:

RENEWED PETITION UNDER 37 CFR § 1.47(a)

This Renewed Petition is submitted in response to the Decision on Petition mailed May 8, 2007, a copy of which is submitted herewith.

According to the Decision on Petition, Applicants have not submitted any evidence "... that the 37 CFR 1.47(a) applicants even attempted to contact the nonsigning inventors via telephone or email to determine whether they received the documents and if they intend to cooperate in the subject application. Moreover, no

PATENT
Docket No.: IF03001USU

reason has been submitted as to why five of the six named inventors are refusing to cooperate. Such efforts are not extraordinary and are required here..."

This Renewed Petition and the accompanying documents are being submitted to remedy these deficiencies. First, subsequent to the filing of the previous Petition, Applicants have received a copy of the Combined Declaration and Power of Attorney signed by inventors James A. Reynolds and Peleus G. Uhley. True and correct copies of the Combined Declarations and Powers of Attorney signed by inventors James A. Reynolds and Peleus G. Uhley are attached hereto as Exhibits A and B, respectively.

Additionally, Applicants are hereby submitting a revised Combined Declaration and Power of Attorney signed by inventor Lance M. Cottrell to replace the Declaration submitted with the Petition filed on March 2, 2007. A true and correct copy of said revised Combined Declaration and Power of Attorney is attached hereto as Exhibit C.

With respect to the remaining non-signing inventors Darya Mazandarany, Steve Walsh and Gene Nelson, Applicants have made additional efforts to find or reach said non-signing inventors, which efforts are set forth in the Declaration by Mariana Paula Noli accompanying this Petition.

Based on the foregoing, the undersigned requests that Darya Mazandarany, Steve Walsh, and Gene Nelson be deemed non-signing joint inventors who cannot be found or reached after diligent efforts by Applicants, and that the submitted Combined Declarations and Powers of Attorney executed by inventors Lance M. Cottrell, James A. Reynolds, and Peleus G. Uhley be accepted as a Declaration signed by all inventors pursuant to 35 U.S.C. §118 and Title 37, Code of Federal Regulations, §1.47(a).

Section 1.56 Duty to Disclose Information Material to Patentability.

(a) A patent by its very nature is affected with a public interest. The public interest is best served, and the most effective patent examination occurs when, at the time an application is being examined, the Office is aware of and evaluates the teachings of all information material to patentability. Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section. The duty to disclose information exists with respect to each pending claim until the claim is cancelled or withdrawn from consideration, or the application becomes abandoned. Information material to the patentability of a claim that is cancelled or withdrawn from consideration need not be submitted if the information is not material to the patentability of any claim remaining under consideration in the application. There is no duty to submit information which is not material to the patentability of any existing claim. The duty to disclose all information known to be material to patentability is deemed to be satisfied if all information known to be material to patentability of any claim issued in a patent was cited by the Office or submitted to the Office in the manner prescribed by §§ 1.97(b)-(d) and 1.98. However, no patent will be granted on an application in connection with which fraud on the Office was practiced or attempted or the duty of disclosure was violated through bad faith or intentional misconduct. The Office encourages applicants to carefully examine:

(1) prior art cited in search reports of a foreign patent office in a counterpart application, and

(2) the closest information over which individuals associated with the filing or prosecution of a patent application believe any pending claim patentably defines, to make sure that any material information contained therein is disclosed to the Office.

(b) Under this section, information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and

(1) It establishes, by itself or in combination with other information, a prima facie case of unpatentability of a claim; or

(2) It refutes, or is inconsistent with, a position the applicant takes in:

(i) Opposing an argument of unpatentability relied on by the Office, or

(ii) Asserting an argument of patentability.

A prima facie case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.

(c) Individuals associated with the filing or prosecution of a patent application within the meaning of this section are:

(1) Each inventor named in the application;

(2) Each attorney or agent who prepares or prosecutes the application; and

(3) Every other person who is substantively involved in the preparation or prosecution of the application and who is associated with the inventor, with the assignee or with anyone to whom there is an obligation to assign the application.

(d) Individuals other than the attorney, agent or inventor may comply with this section by disclosing information to the attorney, agent, or inventor.

(e) In any continuation-in-part application, the duty under this section includes the duty to disclose to the Office all information known to the person to be material to patentability, as defined in paragraph (b) of this section, which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.

Section 1.56 Duty to Disclose Information Material to Patentability.

(a) A patent by its very nature is affected with a public interest. The public interest is best served, and the most effective patent examination occurs when, at the time an application is being examined, the Office is aware of and evaluates the teachings of all information material to patentability. Each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in this section. The duty to disclose information exists with respect to each pending claim until the claim is cancelled or withdrawn from consideration, or the application becomes abandoned. Information material to the patentability of a claim that is cancelled or withdrawn from consideration need not be submitted if the information is not material to the patentability of any claim remaining under consideration in the application. There is no duty to submit information which is not material to the patentability of any existing claim. The duty to disclose all information known to be material to patentability is deemed to be satisfied if all information known to be material to patentability of any claim issued in a patent was cited by the Office or submitted to the Office in the manner prescribed by §§ 1.97(b)-(d) and 1.98. However, no patent will be granted on an application in connection with which fraud on the Office was practiced or attempted or the duty of disclosure was violated through bad faith or intentional misconduct. The Office encourages applicants to carefully examine:

(1) prior art cited in search reports of a foreign patent office in a counterpart application, and

(2) the closest information over which individuals associated with the filing or prosecution of a patent application believe any pending claim patentably defines, to make sure that any material information contained therein is disclosed to the Office.

(b) Under this section, information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and

(1) It establishes, by itself or in combination with other information, a prima facie case of unpatentability of a claim; or

(2) It refutes, or is inconsistent with, a position the applicant takes in:

(i) Opposing an argument of unpatentability relied on by the Office, or

(ii) Asserting an argument of patentability.

A prima facie case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.

(c) Individuals associated with the filing or prosecution of a patent application within the meaning of this section are:

(1) Each inventor named in the application;

(2) Each attorney or agent who prepares or prosecutes the application; and

(3) Every other person who is substantively involved in the preparation or prosecution of the application and who is associated with the inventor, with the assignee or with anyone to whom there is an obligation to assign the application.

(d) Individuals other than the attorney, agent or inventor may comply with this section by disclosing information to the attorney, agent, or inventor.

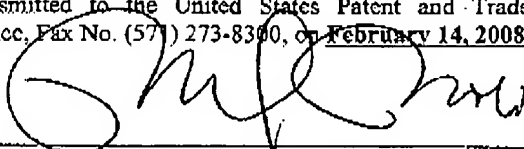

(e) In any continuation-in-part application, the duty under this section includes the duty to disclose to the Office all information known to the person to be material to patentability, as defined in paragraph (b) of this section, which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.

SUPPLEMENTAL DECLARATION OF MARIANA PAULA NOLI

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

I, MARIANA PAULA NOLI, submit this declaration in support of the Renewed Petition under 37 CFR § 1.47(a) filed concurrently herewith.

1. I am employed by The Eclipse Group LLP, an intellectual property law firm.

PATENT
Docket No.: IF03001USU
10/560,725

2. This declaration supplements my Declaration dated March 1, 2007, submitted with a Petition under 37 C.F.R. § 1.47(a) filed with United States Patent and Trademark Office on March 1, 2007.

3. On or about July 13, 2007, I obtained from our client, Anonymizer, Inc., a telephone number and e-mail address possibly being those of inventor Darya Mazandarany. On or about July 16, 2007, I sent an e-mail communication to the e-mail address provided for said inventor, a true and correct copy of which is attached hereto as Exhibit D. Subsequently, I received a notice of non-delivery of this message. A true and correct copy of this communication is attached hereto as Exhibit E. On or about August 2, 2007, I called the telephone number provided and left a voicemail asking if the person at this number was inventor Darya Mazandarany and if so, to contact me. As of the date of this Declaration, I have received no return phone call.

4. On or about July 13, 2007, I also obtained from our client an e-mail address possibly being that of inventor Steve Walsh. On or about July 17, 2007, I sent an e-mail communication to the e-mail address provided for said inventor, and on or about August 2, 2007, I sent a follow up e-mail communication to the same e-mail address. True and correct copies of these e-mails are attached hereto as Exhibit F. As of the date of this Declaration, I have received no responses to these e-mails.

5. On or about July 13, 2007, I also obtained from our client a telephone number and e-mail address possibly being those of inventor Gene Nelson. On or about July 16, 2007, I sent an e-mail communication to the e-mail address provided for said inventor, a true and correct copy of which is attached hereto as Exhibit G. Subsequently,

PATENT
Docket No.: IF03001USU
10/560,725

on or about August 2, 2007, I called the telephone number provided to confirm that it belonged to inventor Gene Nelson and left a voicemail message asking that he contact me to follow up on signature of formal documents. As of the date of this Declaration, I have not received either a return phone call or response to the e-mail.

Respectfully submitted,

Dated: February 14, 2008

Dear Steve-

My name is Mariana Paula Noli, and I work for The Eclipse Group LLP. The Eclipse Group handles several of the IP matters for Anonymizer, and among these cases, there is the above mentioned invention for which you are listed as a joint inventor.

I am trying to contact you to obtain your signature of the formal documents to be submitted to the United States Patent and Trademark Office in this case. Lance Cottrell at Anonymizer provided me with this e-mail address back in 2004. Please let me know whether you still check this email address so I can send you the documents for your signature.

Thank you in advance for your time and assistance with this particular matter. I look forward to your reply regarding this particular matter.

Kindest Regards.
